

Dorothy, Come Home!

By Anna Von Reitz

The Wonderful Wizard of Oz was published in 1900, so all those people who are drawing upon the obvious similarities between Dorothy's trip out of Kansas and our jurisdictional kidnapping must be wrong..... or are they?

Everyone forgets that there was an earlier bankruptcy than the one in 1933, the bankruptcy of the Scottish Interloper doing business as "The United States of America, Incorporated" from 1868 to 1953.

That first bankruptcy technically began in 1896 and went to court in 1907 and was in process until it finally settled in 1953. Frank L. Baum had plenty of time, if he was an Insider, to contemplate the impacts of this first bankruptcy and write it all down as a children's story.

By the time the second bankruptcy of the Roman Catholic Delaware Corporation doing business as "the" United States of America, Incorporated hit in 1933, our land resources were already impounded as security for the first bankruptcy and weren't available. So FDR used us, our bodies and our labor and our private assets, to back-stop the debts of the second bankruptcy.

That's why the results that Frank L. Baum presented originally in 1900 didn't become as obvious as he assumed until the 1930's.

We have been "transported" to the foreign jurisdiction of the British Territorial United States and then kidnapped again into the foreign jurisdiction of the Municipal United States --- and all without any Due Notice or Due Process from our unfaithful servants.

At which point, it's time for "Dorothy" to click the heels of her Ruby Slippers three times and realize --- "There's no place like home...."

If you are missing America the way it should be, then it is more than past time for you and millions of others to take up the challenge posed by these Usurpers and False Trustees.

Donald Trump is doing his best, but he can't do it alone from his side of the fence. It requires a collaboration. Dorothy and Toto have to do their part, and then the Good Witch Glinda has to do hers.

If you've been in the proverbial "Land of Oz" as long as you care to be, then get started on the road home. Declare and record your correct nationality and political status, and either join or start your own County Jural Assembly.

There are a lot of people out there selling one idea or another, focusing on one part of the fraud or another, but the only ultimate solution is to go home to Kansas and restore the lawful government and the Public Law you are owed.

Donald Trump is the President of a bankrupt foreign corporation. About the best he can do is keep the boat afloat and fend off false claims against the cargo by would-be pirates. The real solution and the only real solution that there is, is up to me and you.

Click those Ruby Slippers.

Assemble your State Jural Assemblies and get ready to "reconstruct" the Federal States of States---- a job that has been pending for 150 years. Once you reclaim your status as a Kansan, Vermonter or Minnesotan or..... and assemble your State Jural Assembly, the so-called "Eternal Emergency" will be over at last.

And so will any excuse for European hanky-panky and false claims in commerce.

You will be home, back in Kansas. Or California. Or Wyoming. Or Michigan. Or Maine. Or..... and all the Wicked Witches can just go flap their jaws somewhere else.
