

The Enemy is Now in View -- For All Americans

By Anna Von Reitz

We have waited long and patiently for the confirming proof of who and what form "the Enemy" has taken.

This morning we have confirmation that the organization hoping to benefit itself from all this criminality is the International Monetary Fund (IMF).

Whereupon it becomes a matter of utmost importance for all people worldwide to sue the Pope and the Vatican Chancery Court for the liquidation of the International Monetary Fund as a corporation involved in criminal activities ---which it surely is and which it has demonstrated by knowingly making false claims before the World Court and also misleading President Donald J. Trump.

We are heading up a Committee to Prosecute the International Monetary Fund.

All corporations are obligated to perform lawfully and for lawful purposes --- not legally. Even commercial corporations bear this obligation with respect to living people and their Natural Persons.

As everyone including French President Macron and IMF Director Christine LaGarde have cause to know our government is not in any "abeyance" and our claim as the Priority Creditors of the United States has been given full Public Notice and Due Process and has been subjected to international agricultural liens and cured.

If they have a validated claim against the United States going back to 1776, let them bring it. If not, let them be liquidated for fraud and attempted unlawful conversion of assets.

This necessitates a relatively expensive operation. We will need to send attorneys to the World Court to void the international bankruptcy settlement and we will need to send a delegation to Rome to prosecute the vermin.

Despite the end of the Pontifical Office, the Curia remains 100% responsible for the creation and therefore also 100% responsible for the destruction of all incorporated entities.

If they don't take action to liquidate the International Monetary Fund they will themselves be liable for all damages.

Likewise the Sponsors of the International Monetary Fund will lose their "corporate veil" for fraud and Breach of Trust and malfeasance and other crimes too numerous to mention.

And we will sue for their liquidation, too, if this nonsense continues.

We have advised the IMF officials to retreat to their residences in Washington, DC, until a better understanding can be reached.

Meantime, all this action has to be funded --- as it was in the beginning --- out of our own pockets,---- after our pockets have been picked clean by the same monsters promoting this fraud and inland piracy in the first place.

This is the Hour in which America must re-declare it's sovereignty, destiny, and due. It can only be done by each one of you joining hands with each one of us in supporting the Committee to Prosecute and the very hefty costs involved in sending the law teams to the Hague and Rome.
