

## **Transcript of "The Illuminati and the CFR by Myron Fagan (1887-1972)**

The link here leads to a 30 page transcript of an audio recording made in 1967 by Myron Fagan which Anna asked me to put on her website.

The title of the talk is 'The Illuminati and the Council on Foreign Relations.'

Anna's note to me was:

Paul -- is there any way that the attached transcript could be posted on the website? The information is so important and succinct I think it would help people cope with all the bumps along the way.

So here is the link:

And here is Mr. Fagan reading his document. Thanks to Ed Movius for this.
