

Follow the Logic

The rats have identified you as a franchise of their bankrupt corporation.

JOHN MICHAEL DOE (substitute your name in all caps) is a "ward of the STATE OF MICHIGAN" which is a franchise of the bankrupt UNITED STATES.

What happens?

All of JOHN MICHAEL DOE's assets get held as surety backing the debts of the bankrupt parent corporations and as a result of the bankruptcy, "HIS" debts get discharged in bankruptcy.

His assets remain captive.

What should happen is that you are recognized as an American and not a Federale, and YOUR presumed debts should be discharged AND you should receive back your actual assets, free and clear.

That's what should happen and what must happen to clear up this mess.

Anna Von Reitz
