Gentlemen, Ladies:

Please find attached a copy of our Federal Court Order mandating discovery and recoupment of American Trust Assets and consider this your complete Notice of the following facts:

(1) An attempt has been made to overthrow the Public Law and the National Governments by attorneys and banks and corporate interests seeking to establish a "New Legal Order" --- under so-called Cloak of Secrecy;

(2) This is a Confidence Scheme in which the lawful Family Name Trademarks of living people are purloined, mischaracterized as “Last Names”, and used as “titles” to create British Territorial Persons that don’t exist;

(3) This is a reprise of the 1702 Bottomry Bonds Scandal in which non-existent ships were created in-name-only, insured, and then conveniently lost at sea, together with their cargo and crews;

(4) The insurance premiums paid out were staggering, just as they are in the current case, in which Prince Philip received \$950 Trillion dollars-worth of “Life Force Value Annuities” from a Municipal Corporation styling itself as OTTAWA and persons styling themselves as the GOVERNOR OF OTTAWA;

(5) The same Confidence Scheme seeks to reduce living people to the status of Things and to subject them under the Territorial and Statutory Law of Corporations so as to evade the Public Law, Treaties, Constitutions, and Service Contracts which are owed to all sentient men and women;

(6) These evils have had their long genesis in England within the Government of Westminster, and while their ultimate creation began with the Great Fire of London and the Enactment of the Cestui Que Vie Act of 1666, this most recent iteration arose during the reign of Queen Victoria, when so-called Enfranchisement Acts were used to defraud and latch upon the living people of Great Britain and the Commonwealth as collateral assets relegated to the status of Public Trusts administered by the Queen’s attorneys;

(7) In time, the same Corporatists contrived to bring this Evil to The United States of America, by gratuitously and in self-interest, registering millions of Americans as British Persons and British Territorial U.S. Citizens --- as if they had all been born in Puerto Rico --- and were all voluntary Subjects of the Queen, without however disclosing any of these cozy arrangements to the American victims of this outrageous fraud and Breach of Trust;

(8) All this fraud, all this unjust enrichment, all this illegal and unlawful finagling has been fully investigated and hereby stands repudiated. There will be no so-called Legal New Order, because the Lawful Old Order still stands, and the Public Law owed to the people will be enforced;

(9) We have reason to believe that funds purloined via the above-described Confidence Scheme in the form of credit and also in the form of gold and silver and other physical assets belonging to our American Government and to our States and People, are cashiered and presently in the possession of the Bank of England and its American affiliates, JPMorgan Chase and Co., which is why your respective Boards are being directly addressed;

(10) It has come to our attention that in addition to the funds being illegally and unlawfully and immorally purloined and cashiered, certain actions taken by Bank Officers seeking to exercise the benefits of the Confidence Scheme described, have directly infringed upon our efforts to discover and recoup assets belonging to our actual Government and to individual living Americans, including funds owed to The D'Avila Family Trust, the V.K. Durham Trust, the Guadalupe Hidalgo Treaty Trust, over 5,000 so-called Historic Trusts and millions of so-called Legacy Trusts belonging to individual people;

(11) Most offensive are those actions undertaken without elected capacity or any lawful authority at all in 1976 by Bank Officers including Mr. Tucker and Mr. Dimon to decide the fate of The D'Avila Family Trust Assets and give them to a known Con Artist named Alex Tallon, posing as a relative of Ferdinand Marcos--- see this enormous fraud detailed here:

<https://sites.google.com/site/unphmdg/documents/successor-heir-veracity-certificate>

(12) As you can clearly see, these Bank Officers have no authority to issue any "Successor Heir Veracity Certificate" and Alex Tallon isn't even a Marcos, much less a D'Avila Heir;

(13) All these preposterous fictional claims and characters must be set aside in favor of the cold but steady light of fact;

(14) The assets of The D'Avila Family Trust belong to the members of the D'Avila family and their intended beneficiaries;

(15) The assets of The D'Avila Family Trust are not owed to any heir of Severino Sta. Romana nor to any heir of Ferdinand Marcos, both of whom were employed by The D'Avila Family Trust --- Severino to serve as Depositor and Marcos to serve as Depositor Witness;

(16) When Severino died, the Heirs of The D'Avila Family Trust sued his estate in Federal Court and won, because as the actual source of all the funds, the actual Heirs could produce the provenance of the funds --- something that neither Severino nor Mr. Marcos could do;

(17) You have the Court Order before you, and despite the fact that the Heir has been misrepresented as a U.S. Citizen/CITIZEN, he is in fact an American, having adopted South Carolina as his permanent home after completing all requirements of immigration prior to the issuance of this Federal Court Order;

(18) We are not naturally nor voluntarily subject to foreign law, including that private statutory law used by corporations and their legislatures for purposes of their own administration;

(19) We are invoking and enforcing the Public and International Law and owe no duty to our employees or their banks to comply with any rules or regulations, codes, or statutes, much less any hindrances caused by attempts to mischaracterize and impersonate us as fictional British Persons or Municipal PERSONS, either one;

(20) The Confidence Scheme seeking to denature and redefine humanity as just so many corporate franchises, has been discovered and is at an end; likewise, all efforts to redefine people as Genetically Modified Organisms, Special Purpose Vehicles, and Carbon Dioxide Producers are at an end;

(21) None of you in receipt of this communication are safe from liability and prosecution for capital crimes, including genocide, so long as you fail to take prompt and determined action to uphold the Public and International Law and return the credit and assets owed to the control of the actual people they belong to. This action is not discretionary on your parts; it is obligatory;

(22) You have been served and advised and provided with all necessary information to begin correction; you have seven (7) days to reply:

Notice to Agents is Notice to Principals, Notice to Principals is Notice to Agents.
