

Get "YOUR" BC's Now

By Anna Von Reitz

If you haven't yet tracked down certified copies of the Birth Certificates issued in your NAME, do so now. Order at least three copies if at all possible.

Word has it that it is becoming more and more difficult to get a certified copy of a BC from these State of State organizations. This may be because of cutbacks in services, but may also reflect reluctance to provide evidence of their own wrong-doing.

Either way, a word to the wise is sufficient. The BC is a two-edged sword. It is proof that you exist and were born on the land and soil of this country, and it is also proof of the crime they committed against you by forming and enforcing an unconscionable contract.

When you get your certified copies of the BC they issued in your NAME, notice that it is issued on bond paper. It is a security. Notice who it is signed by? The Registrar --- an Officer of the Probate Court. This is proof that your estate has been illegally probated.

It's embarrassing and costly when you show up alive and well.

Don't delay. Order your certified copies of "YOUR" Birth Certificate now. You will need them going forward to establish your identity and proper political status --- and also to claim credit and assets that are owed to you.
