

Welcome to the Boer War -- Antony Fauci and Glycoprotein 120

By Anna Von Reitz

Okay, time for your Simple Science Lesson. It includes a little history, too.

But first and throughout, bear these facts in mind: the CDC, that is, the Center for Disease Control, is a private organization in the business of manufacturing vaccines. And, Dr. Anthony Fauci, the same CDC expert trotted out in front of the cameras with President Trump, and his cohort, Dr. Birx, have been working on the culprit HIV Glycoprotein 120 that has expedited this pandemic ever since 1986.

Nobody knows more about HIV Glycoprotein 120 than Dr. Fauci.

And nobody stands to gain more financially from this pandemic than Dr. Fauci and the CDC, except perhaps for Bill Gates.

In the words of my friend, Noonie Bomblast, "Coo-ee Bono".

When this whole mess began I wrote articles about the sensitivity of people who suffer from Porphyria to Electromagnetic Radiation, and how this is caused by the radio frequency sensitivity of the entire class of pigmented proteins known as porphyrins that are a fundamentally important part of Hemoglobin. SARS viruses are also known to be radio frequency EM-sensitive.

In view of 5G inundating Wuhan, China, it all seemed like too much of a coincidence, that we would be seeing patients dying of what appeared to be "altitude sickness" --- hypoxia --- aka, oxygen deprivation --- and it was.

SARS is a double-meaning acronym like ESF. It can stand for "Severe Acute Respiratory Syndrome" or, alternatively, it can stand for "Specific Absorption Range Sensitive" --- now add the word "Virus" and you are describing the same class of viruses in two different ways: one, the effect of the virus, and the other, the character of the virus.

All SARS viruses are radio sensitive and so are the porphyrin rings that act as cages enclosing the iron atoms that form the "Heme" group in Hemoglobin.

In Covid-19, the SARS-family corona virus attaches to the porphyrin ring and releases the iron atom Heme Group into the bloodstream.

This does two things: (1) it incapacitates the ability of Hemoglobin to carry oxygen throughout your body, causing oxygen deprivation--- clinical hypoxia; (2) it causes iron poisoning of the blood stream, which in turn kicks your bone marrow into hyperdrive to produce new hemoglobin to capture the loose iron and carry out its oxygen transport functions.

That's how Covid 19 patients die, deprived of oxygen like a fish out of water, drowning in their own blood.

Now, it's your turn, Dr. Fauci. And Bill Gates, too.

All this started during the Boer War, when one of the Rothschilds, Lord Pirbright, seized upon this new science of virology -- as what else? A weapon of war, which he turned against the hapless Boers, the Dutch Farmers who colonized South Africa. This is also where concentration camps got their start.

Nazi-ism wasn't first practiced by the Germans. It was born in Westminster.

And that's where it needs to end, too. Maybe with a real atom bomb and worldwide exposure of every little detail back to 1840, when England was sold out to the House of Wettin?

This is why and how the Pirbright Institute is involved in this current pandemic, and the Wellcome Trust, too.

In 1986, Dr. Fauci and Dr. Birx, his sidekick at the privately run and funded CDC started work on HIV Glycoprotein 120. What Glycoprotein 120 coats the HIV virus --like a chocolate-coated pill-- so that your body ingests the virus instead of recognizing it and rejecting it outright.

This Glycoprotein 120 coating gives the virus easy access to start proliferating, and the correct radio frequency kicks that proliferation into overdrive.

It takes 885 precisely sequenced amino acid pairs to code for production of Glycoprotein 120. Read that --- there is no way in Hell that the presence of HIV Glycoprotein 120 just "show up spontaneously" in a corona virus.

It was deliberately engineered into the corona virus.

And who better to engineer it, than the world renown experts---- Dr. Fauci and Dr. Birx?

If they didn't do it directly, they aided and assisted those who did--- Bill Gates, the Pirbright Institute, the Wellcome Trust, DARPA, all the usual nasty corporate and DIA - Nazi Eugenist Social Engineering suspects.

And for what? To reduce the population and thereby avoid paying back the debts they owe these people, to collect the victim's life insurance, and to make lots and lots of money for themselves and their cronies by selling vaccines laced with poisons and RFID chips.

It's time to round them up and try them under the Military Code of Justice and hang them all.

This afternoon, I received a threat from them, saying that they will employ STUXNET and set off a series of nuclear explosions.

I wrote back that any such action on their part will result in the immediate worldwide release of the entire USB Receipt Book, all 13 parts, and the Kill Order to eradicate all members of all thirteen bloodline families. Including all the bastards we can trace. Once and for all, zum Ende.

Sucks to be on the receiving end.
