

International Public Notice: Hands Off, Mr. Trump

By Anna Von Reitz

Commander-in-Chief remains a naval office, whether it is under British or American Admiralty.

The civilian authority on the land jurisdiction remains supreme under The Constitution of the United States of America and under international law.

The civilian authority on the land at this time is the unincorporated Federation of States doing business as The United States of America -- the international instrumentality of the States of the Union.

So stop trying to substitute your private British LLC doing business as the "United States of America" -- Incorporated, for the actual American Government the people of this country are owed.

Just give it up.

We have your birth certificate showing that you were born in Bavaria, not New York. Mr. Trump, you aren't eligible to be our President.

Like Lincoln, the only kind of President you can be is the President of a foreign corporation under contract to provide us with enumerated services in good faith.

So buckle down and show us good faith for the first time since 1863.

The States of the Union and the people of this country are the lawful and legal inheritors of the assets held in trust by the UNITED STATES and the United States, Inc.

You know this. The generals know this. The admirals know this. And we know this, too.

It's time to heal the wounds and do right by this nation made of many nations.

We are doing this for the sake of all Americans including but not limited to the men and women under your command on the High Seas and Navigable Inland Waterways.

In concert with the American Indian nations, we are reopening the American Government and reconstructing the American Republic as it was meant to be. We have already re-issued our Sovereign Letters Patent in 2015 and served Due Process and Notice from 2007 to 2014.

Forcing the Hereditary Peers out of the Faux Parliament and back onto the land jurisdiction was a good move; they will regroup and restore the English national government, the Scottish national government, the Irish national government and the Welsh national government.

Great Britain, Inc. and the UK will be toast and will drag the rest of the EU down with them. Good riddance to these parasitic corporations.

Kudos to you, but if America is ever to be great again, it has to be built on the rock of truth, not another False Flag substitution fraud instigated by billionaires.

Notice to Principals is Notice to Agents; Notice to Agents is Notice to Principals.

Take notice, all peoples of the Earth: the government being run by Donald J. Trump is still a quasi-military oligarchy and its leaders have not come home, have not avowed their loyalty to the States of the Union, have not restored the "struck" American flag hanging in the Congressional Chambers to its upright horizontal position, have not honored their Delegators by flying the peacetime flag of this country.

Until they do this, this country must be assumed to be under an illegal mercenary occupation.
