

Lest We Forget --- and Continue Paying

By Anna Von Reitz

Here is a link to a wonderful summation of the history of the infamous Victory Tax --- passed as a wartime measure to "allow" Americans to donate (voluntarily) a portion of their earnings equal to the Federal Income Tax being paid by federal employees to help the war effort.

The problem is that the war ended in 1945 and the rats just kept on collecting and extorting and enforcing.

I recently revealed the exact location of the Presidential Declaration ending the Second World War at the beginning of Title 50.

Here now is the Title and Verse of where, when, by whom --- and how deceptively and purposefully the "Victory Tax" was instituted and carried on for the last 75 years causing untold harm, loss of assets, suffering, and fear for innocent Americans who stepped forward to help these monsters.

Brief Explanation of the Victory Tax

See also: [Victory Tax brocher](#), scans provided by Phyllis Merryman Cloyd

Prior to World War II, no one outside the government paid income tax; the people were, and understood themselves to be, immune from that tax. During WWII, Congress passed the Victory Tax ([56 Stat. 884](#)) to impose an income tax on every individual in The United States of America, something which had not been done by any previous income tax act. Excepted from that tax were those already paying income taxes per [I.R.C. 211\(a\)](#) - nonresident alien individuals with no United States business or office but living in a "[contiguous country](#)" and having income from United States sources.

I am doing it this way because these paragaphs are scans of a document and not editable on this blog format.
