Dear Sirs:

We are facing a crisis in the long process to restore lawful government to the actual United States and continue to suffer false claims and insupportable, outlawed practices which the so-called Territorial United States and Municipal United States corporations have been attempting to foist off on the actual states and people. On May 1, 2017, they propose to set up a deliberate fraud scheme to attack and defraud millions upon millions of innocent people utilizing the Commonwealth of Puerto Rico as a base of operations. This has been done before as part of the fraudulent 1930's bankruptcy of the United States of America, Inc., and is apparently being done in preparation for a similar fraud scheme related to the bankruptcy of the UNITED STATES, INC. The scheme has been prepared for by the Obama Administration and is apparently being carried through by the Trump Administration. The Commonwealth of Puerto Rico, a member of the Territorial United States organization, is bankrupting its primary electrical utility corporation. This in itself is hardly worthy of mention on a global scale and would occasion little comment or concern, except that Mr. Obama created millions of purported "franchises" which are supposedly stand as sureties for this particular Puerto Rican public utility. These "franchises" are all identified using alphabetic ACCOUNT designators that appear to be the names of living Americans--- for example, Alfred T. Krebs or ALFRED T. KREBS. It isn't certain yet whether they will attempt to use Glosa against our Judicial Notice of Fraud and Violation issued last May or not, but their intention has been clearly stated in the press. A copy of the Judicial Notice of Fraud and Violation has been included in a letter (copy also attached) to U.S. Attorney General Jeffrey Sessions.

When unsuspecting Americans receive bills addressed to these foreign public transmitting utilities, they pay them under the false assumption that these bills are legitimately addressed to them. The actual bills are already being paid out of the U.S. Treasury, so the perpetrators pocket the difference and say that these additional payments are "donations" and "gifts"----but are really the fruits of unjust enrichment, extortion, racketeering, and fraud committed by employees against their trusting employers.

It is international mail fraud, international identity theft, and involuntary conscription amounting to international slavery and racketeering being implemented via similar names deceipts and the illegal and prohibited use of Glossas and false names. Please note that these Accounts/ACCOUNTS which use middle initials are not even legal names for lack of specificity.

This is also constructive fraud on a massive scale which has been prepared with malice aforethought by foreign governmental services corporations operating as crime syndicates on our shores. The essence of the crime is clearly established. They kidnap, press-gang, and coerce Americans to sign up for programs that only US Territorial or US Municipal employees are eligible for, then falsely claim that these people are "voluntarily" functioning as either Territorial or Municipal "citizens" and are then subject to their private corporation statutes, regulations, and codes.

Mr. Jeffrey Sessions, functioning as the U.S. Attorney General, has been given full warning with regard these deliberate anticipated crimes on our shores as well as a copy of our Judicial Notice of Fraud and Violation which was also sent to you last May.

Sincerely,  
Judge Anna Maria Riezinger
