

They Even Lied --- Successfully --- to the Russians

By Anna Von Reitz

And the Russians are hard sells to spoof.

I find it fascinating. What has actually happened is that there are in fact two factions of bankers represented by the Federal Reserve and the IMF, respectively.

The Federal Reserve is run by old-line Sephardic Spanish, French, Italian and more recently, Israeli banks.

The IMF is run by upstart Ashkenazi and military-industrialist commercial bankers.

Both of these groups have been acting as crime syndicates and predators, and not because they are Jewish --- it's because they are bankers, and as bankers, they work for governments and militaries which, to some extent they control, because the bankers are charged with finding ways to finance both the politicians and the militaries of all these countries.

This became very difficult to do early last century for two reasons: (1) gold is an inelastic commodity, and (2) a very large portion of the gold backing the world's monetary system disappeared between 1898 and 1907. It simply disappeared.

We now know that it went to the Philippines and that it was cashiered there by a now long-defunct Scottish commercial corporation doing business "as" The United States of America --- Incorporated. The gold was transported to the Philippines by the British-controlled U.S. Navy. It was our gold and the gold of other countries that trusted our banks, and therefore, deposited gold here.

The Philippines were supposed to become-- for the Bank of England and Bank of Scotland and Bank of France crooks responsible for all this-- a sort of alternative to Switzerland as a banking stronghold. It was to be a new epicenter for international banking ----and, for continued fraud and theft and "leveraging" of currency commodities.

They experienced some difficulties when the Japanese took the Philippines during World War II, but for the most part, it was too hard for the Japanese to transport the gold under war time conditions and while they managed to set up a couple secondary centers in Indonesia and Hong Kong and various stashes around the Pacific Rim, including the Japanese homeland, most of the gold remained in the Philippines.

Douglas MacArthur could be sure that he would return. He knew that with that much gold sitting there up for grabs, no expense of men or materials would be too great.

Did MacArthur know that he was sitting on stolen American gold and gold stolen from private citizens and other countries from around the world who deposited their gold in our banks? Probably. But he was also no doubt given some plausible Cock and Bull story to explain away the circumstance, too.

This has been the long history of The Mess: honorable men are lied to by those in positions of authority, and acting upon these lies, they make wrong assumptions and take heinously incorrect actions.

As the Zoroastrians observed Millenia ago, without right thoughts, it is impossible to take right actions.

So, what was the ultimate "Hundred Year Plan" of these hucksters?

They would collect by all means possible, all the gold in the world that they could mine or otherwise lay their hands on, hoard it, and when the time was ripe and they had siphoned off all real and/or perceived value of the fiat currencies, they would purposefully limit the supply of gold and force the grandsons of the men they stole the gold from in the first place to pay exorbitant amounts of resources and labor to buy it back.

Gold, just before the Crash, sold for @ \$30 in silver per ounce. What does it sell for today? At least \$1000 in oil per ounce. That difference between \$30 and \$1000 for the same amount of gold, is what the crooks were (and are) aiming to cash in on. THAT is what it is all about: (1) limiting access to gold; (2) driving the price of gold up as much as possible.

They did the same thing with oil and they are trying to do the same thing with water. It is always the same. Find a commodity that everyone either needs or that they believe is supremely valuable, corner the market, choke off the supply, and charge up the wazoo for it.

It's boring. It's infantile. It's crooked. And in the end, it's insane, because it creates bogus shortages of things that are in fact abundant. It leaves everyone on Earth dealing from a stacked deck and living in a purposefully skewed reality dominated by artificially created shortages.

No matter how they create these bogus shortages or what commodity is targeted, the modus operandi is always the same. And the people of the Earth always suffer for it.

So now we have Russian Generals hopping around up and down on one leg and calling Donald Trump an "economic hit man" and pointing fingers at "the Jews".

The Jews have been bankers since the seventh century BCE for the simple reason that although their religion forbids them to charge interest on loans to other Jews, it allows them to charge interest on loans (practice usury) made to Gentiles.

Since the advent of Islam, Muslims have been pressed into service as bankers for similar reasons, except that Muslims who are dishonest face moral and physical punishment within their own communities--- hence, on average, Muslims make more honest bankers.

That's why so many high-flying Jews keep their money in Muslim banks. Muslim banks are safer and Muslim bankers are more honest. Go figure.

And that is part of the reason that Iran is being targeted. Word has it that vast amounts of gold and other precious metal and jewel assets have been stashed by Muslim bankers in Iran.

And that is why Iran is being misrepresented by the Western Press Corps as a dangerous Aggressor --- when it hasn't fought a war outside its borders in over 200 years.

It's time to grow up.

It's time to look at what is in front of our faces.

The bankers are a problem because we let them be a problem.

We let the politicians and military be a problem, too.

They work for us. They get their pay from us, albeit via the Queen or the Pope acting as middlemen. Their armies and navies are built on the backs of our sons and daughters.

What happens if we all --- Russians, Chinese, Japanese, Germans, Americans, and yes, Brits --- all wake up and face the facts?

It's all a crooked, violent, destructive, criminal racket built on lies and secretive enslavement of living people, theft of their assets, and created shortages of commodities that are in fact abundant.

This situation exists because we have all been sitting on our rumps, gullibly trusting our governments and bought-and-paid-for news commentators.

Mr. Trump isn't an economic hit man. He's a beleaguered corporate CEO trying to administer an unimaginably huge bankruptcy, which is predicated in turn on an unimaginably huge probate fraud ---and if he fails, not only this country but the entire rest of the world will be thrown into WWII --- a cataclysm that nobody will survive.

The American States and People are owed the return of approximately \$387 billion in gold, plus interest, from the World Bank. We are owed the return of the control of the Philippines and Puerto Rico and the Northern Mariannas Islands --which were all purchased "for" us, with our money. We are owed -- at a minimum -- \$23 trillion dollars as the American National Credit.

And we are owed nothing but thanks from the rest of the world which has benefited itself at our expense for 150 years.

Those are the facts.

So, now what do we do with them?

We declare and record our proper political status, we boot up our States of the Union, we elect our Justices of the Peace, we serve as Jurors, actual County Sheriffs, Land Marshals -- aka, Continental Marshals --- and we reboot our civilian courts.

We demand the closure of the Municipal and "Administrative" COURTS and the end of all presumptions against our private and public property assets, the collapse of all so-called "infant decedant estates" and the return of all assets to the lawful owners.

We object loudly to U.S. Navy and NATO attempts to create a worldwide drought in order to make water a "strategic commodity".

We pay attention to what these cretins are really doing behind our backs.

We get to the bottom of who owns and operates the corporation doing business as the GOVERNMENT OF THE UNITED STATES.

We grab these miscreants by the shorthairs and hang them upside down until they call "Uncle".

It's all simple enough, not rocket science at all. And all it takes is for the people of this world to wake up, declare their proper political status, and take action, action, action --- and those actions to not include begging these vermin for more "treats" like trained dogs.

No, we don't "petition" them for anything. We tell them what they are going to do as our deputies. And if they don't do their duty, they lose their contracts.

And that, darlings, is the only way to deal with out of control commercial corporations --- pull their contracts and charters, un-staff their offices, sell their stock, expose their dirt, arrest their officers if they are guilty of crimes, boycott their products, sue them for non-performance in your own courts of law, and stop being chumps and marks.

The real economic "hit men" are operating Municipal and Administrative COURTS in this country and around the world. That's why these COURTS have to be shut down and replaced by actual civilian courts from here to Dusseldorf.

These COURTS are being used as private debt collection agencies and they are being used to sue the actual Creditors of these Perpetrators. Just as we told you all --- these vermin borrow from and then murder their Creditors, so that they don't have to pay them back. We recently published absolute proof of this fact by their own admission.

This is what happened to the Jews in Germany, because they were holding the largest amount of the Nazi Government's debt, and this is what the Perpetrators of this "System" have planned to happen in America, too.

Take a look around, people. There are more than 800 FEMA camps in this country, and billions of rounds of ammunition in the hands of Municipal "Agencies" ---- is it worth your time and effort to pay attention and get involved in running your own government?

Or are you just going to sit there and wait for whatever comes?

It's time for a vast outreach of people-to-people around the globe, all working together to end this madness, and nobody has more fat in the fire than the Jewish and Muslim bankers who have been used to set up and operate this "System".

Now, I know that when you wake up and look at the actual situation, you will feel afraid of the Beast. That is natural. Just be aware that it is a Beast of your own creation, and that will help cut it down to size. Like the shadows in your closet and the dust bunnies under you chair, it exists because you were asleep and let it accumulate.

And now, it's time to wake up and clean house.
