This record demonstrates my lineage claim to the land and soil of this country through numerous ancestors who were here before the Civil War and even before the Revolution.

But even if you are not lucky enough to have a similar recitation, if you were born in this country or born to parents who were born in this country or even to parents claiming to be American state nationals through their parents or who are legal immigrants who finished the Naturalization process to become a "US citizen" and then went on to adopt a permanent domicile in one of the States-- you can do the same thing.

Why? Because anyone born or naturalized into these Land-States is heir to their kingdom, free and clear.

Your Claim for the Life doesn't have to be long or ornate. It doesn't have to involve ancestors who lived in this country, so long as your were born here or naturalized and then expatriated to an adopted State of the Union.

To those who are misleading everyone and telling them that they don't have to go through all this effort to rebut lies being told about them and record their counter-claims ----- there are a lot of crooks that hope you don't, lots of corporations that don't want to pay back what they've stolen, lots of politicians who don't want to own up to the facts, lots of insurance underwriters and banks, too.

And if you don't record your claims because you were lazy or thought you didn't have to --- the rats win.

It's up to you.
