

Common Misconceptions -- 2.0 : Your Urgent Attention, Please

By Anna Von Reitz

The two remaining foreign Federal Subcontractors, the British Territorial Government and the Papist Municipal Government, incorporated their business interests following the Civil War --- and there was no rule prohibiting them from restructuring in this way despite all the confusion about the Act of 1871 and the Municipal Acts.

As businesses, all three Federal Subcontractors had offices of a "President" associated with them. Look up the legal meaning of "President" and you will see that this is merely the CEO of a business.

The Presidential Office associated with the American Federal Subcontractor doing business as the States of America was: The Office of the President of the United States of America.

The British Territorial Office was and is: The Office of the President of the United States of America.

The Papist Municipal Office was and is: The Office of the President of the United States.

Successive corporations sponsored by these foreign Federal Subcontractors doing business generally as "the US, INC." and "the USA, Inc." have undergone cyclical and deliberate bankruptcies.

These bankruptcies have been used to off-load the corporate debts of these foreign Federal Subcontractors onto the backs of unsuspecting Americans, who were unknowingly left standing as "sureties" for the operating expenses of these corporations.

And let's put it this way --- left to themselves to "interpret" their duties and the meaning of their contracts, these foreign Federal Subcontractors have mightily helped themselves to our labor and our assets under conditions of non-disclosure and fraud.

The abuses and usurpations have gone so far as to "presume" that we "left" and went somewhere "over the seas" and "abandoned" our country and our assets, leaving everything to be divided up among our erstwhile employees and their creditors.

This is the bunko set-up we are facing off right now and every American loyal to this country needs to show up for duty.
