

## "Coronavirus" is the New Name of the Common Cold

By Anna Von Reitz

Let's tell the Queen, the Pope, and yes, the President, too, what we really think of their attempt at the Biggest Lie yet.

And let's send the patent holders the bill, too.

What we are looking at is the Common Cold, restyled as "Covid 19" --- which is the World Health Organization name for the Common Cold. Read on.

Mr. Trump, you've declared a National Emergency over the Common Cold.

Can you imagine how stupid that makes us all look? Yes, us, too, for not knowing WHO jargon and not picking up on the joke earlier, but especially your Administration and all the members of Congress look incredibly lame.

And all this money spent on ventilators? Masks? Gloves? Well, we agree that more should be done to serve the elderly during flu season, but this is ridiculous. We are all familiar with the fact that the Common Cold can develop into pneumonia. We are all used to dealing with it, every year. And we all know that many people die of cold-related pneumonia every year, too.

We still get up and go to work and buy our groceries and read books and accomplish all the other functions of life despite this Big News.

The disaster in Wuhan was a microwave radiation blast, not any infectious disease. We now have the proof of that massive microwave burst, too, though it's classified, and strictly speaking, still not clear who was responsible for that horrific "test" on a domestic population.

But as for the corona virus ---

How can we respect or support a government, or in this case, a subcontractor providing government services, that does nothing but lie to us and manipulate us and claim nonconsensual "powers" over people who are not within its political jurisdiction?

Read this from Larry Hannigan, and see the citation from the 1989 American Medical Association Encyclopedia and weep:

<https://larryhannigan.com/2020/03/21/lets-find-out-what-the-coronavirus-really-is/>

And then read this little gem about how the Israelis (the Israelis, again) have developed a vaccine for the corona virus, aka, Common Cold, from the Gateway Pundit, released February 2, 2020:

<https://www.thegatewaypundit.com/2020/02/huge-breaking-news-israeli-researchers-on-cusp-of-creating-coronavirus-vaccine-could-be-ready-in-a-few-weeks-and-available-in-90-days/>

And then, go here and see who actually owns the US Patent on this "novel" corona virus---- the British (again) Pirbright Institute:

<https://patents.google.com/patent/US10130701B2/en?q=US10130701>

And then, go here and see the facts about the "tests" they are giving out to diagnose the "corona virus" --- aka, Common Cold --- and see that they are turning up 50 to 80% "False Positive" results. This means that these tests show that a person has the disease, when they don't, more than half the time---- making these tests useless as diagnostic tools:

<http://www.paulstramer.net/2020/03/false-positive-test-results.html>

And finally, go here to G. Edward Griffin's Need to Know News site and read the analysis of an expert about all the above, leading him to wonder--- does it exist?

<https://needtoknow.news/2020/03/engineer-analyzes-pcr-coronavirus-test-and-raises-the-question-does-the-2019-coronavirus-exist/>

The estimates we have seen are \$1000 per hit for vaccine, which when charged to us would result in a huge windfall for the vaccine producers --- Israel, while all the medical care extras amount to a huge windfall for Big Pharma and medical equipment suppliers overall.

No wonder the Israeli banks in back of the "Federal Reserve" are willing to extend unlimited credit on the back of their victims, but we say they are counting their chickens a bit too early:

(1) The actual government of this country in international jurisdiction, The United States of America [Unincorporated] has not declared any emergency of any kind;

(2) The actual government of this country does not recognize any special "war powers" granted to any President of "the" United States of America beyond his control of the Armed Forces, under Constitutional Contract, as Commander-in-Chief. Read that --- we don't give a rat's rump what FDR claimed with regard to his hegemony over Territorial and Municipal Employees and the operations of the Subcontracting Federal Corporation Service Providers. No such authority applies to American State Nationals and American State Citizens who are peaceably going about their business on their own soil.

(3) Americans are not subject to any enforced vaccination program for the Common Cold, though members of the U.S. Military and their Dependents may be;

(4) We have made it clear that the "price" of murdering any American by any means on our soil is one (1) trillion USD and that amount will be charged and assessed against any government or corporation perpetuating, aiding, or abetting such crimes on our soil;

(5) We think that these facts when duly appreciated remove any presumed authority for or financial benefit from continuing to promote this deplorable, destructive hoax and the damages being inflicted upon the elderly population worldwide.

We note the following facts, too:

(A) The greatest medical care costs of a person's lifetime on average occur during the last three years of life. By killing off elderly people worldwide (the average corona virus victim's age is 80) the corporations are saving themselves trillions of dollars in government guaranteed medical costs.

(B) There is a pattern here of abusing the Public Trust via semantic deceits attached to medical terms and drugs. The Common Cold has been renamed "Covid 19" to create a seemingly new Bug-a-Boo, when in fact it is the same old familiar monster. This deceit is being used to claim the existence of a

"medical emergency" that doesn't exist, and is leading to the abuse of the Public Purse and the abuse of Police Powers.

The actual problem, that Municipal Police Forces have been de-funded by the Municipal bankruptcy needs to be addressed in a sensible and honest fashion. We are competent to deal with this without any undue concern or supervision.

(C) Similarly, an intermediate byproduct of epinephrine's conversion into adrenaline has been dubbed "adrenochrome" and demonized toward the same ends--- creating a new Bug-a-Boo and cover story for drug abuse that is very profitable. The actual "drug" is Adrenalin -- not the precursors that merely stimulate the production of Adrenalin in the user's body.

Read that: epinephrine and the next chemical step dubbed "adrenochrome" in the triggering of Adrenalin, are not the real problem. The problem is that Adrenalin is addictive and millions of American Service Men and Women and other military personnel worldwide have unwittingly become addicted in the course of military service. Many of them have learned to self-stimulate. **PTSD is a direct and known result of Adrenalin addiction.**

This creates a huge, ready-made pool of potential drug users and motivates the traditional drug-pushers, the British Crown and China (albeit, not the Chinese People--- their forever strapped government) to limit access to epinephrine -- which has already been done -- and demonize adrenochrome to justify the sky-high prices being charged for it under its street name, "White Rabbit".

Rather than address the truth and the real problem, these vermin are creating the problem by abuse of our military personnel as cheap mercenaries, and then, seeking to profit from the unseen drug addiction they have created.

This disgusting, unaccountable, and deceptive behavior on the part of the "governmental service corporations" has to stop, or we will all have to join together to liquidate these organizations, nunc pro tunc.
