

## Notice and Demand X Three

By Anna Von Reitz

The would-be assassins of President Trump were part of an elite Marine Guard unit that apparently went Rogue and was being paid to do this as mercenaries hired by the FBI.

The FBI along with other well-known alphabet soup agencies (including BLM) is owned and operated by a for-profit corporation calling itself the "GOVERNMENT OF THE UNITED STATES". We can see by the manner in which the name of this organization is styled that it is a Municipal United States corporation and one of those being liquidated for criminal activity as a franchise of the UNITED STATES, INC.

Now the interesting question is --- who are the members of the Board and Shareholders and Comptrollers of this entity doing business as the "GOVERNMENT OF THE UNITED STATES"?

We know that they were directly involved in the murder of American State Citizens including the travesties at Ruby Ridge, Waco, and more recently, the ambush and murder of LaVoy Finicum. We know that they have been orchestrating the activities of both the FBI and BLM, so that there was a conflict of interest inherent in the FBI's actions from the start of the occupation of the wildlife refuge in Oregon.

It would seem that identification and arrest of these criminals and the shutting down of their corporations for criminal activity should be Job One --- except that they are already in liquidation as municipal franchises of the UNITED STATES, INC. and don't have a contract and are supposed to be shut down entirely for a period of 90 days.

Does this mean that the perpetrators get away with everything? Just do another "Presto-Change-O!" --- alter the spelling or order or style of their corporate name and keep right on skating?

I don't think so.

Pope Francis? This is your baileywick. You ordered the liquidation of the UNITED STATES, INC. --- thank you, very much --- and now may we impose on your good graces to take a further administrative action along with the members of the Curia?

We would like those individuals responsible for the mismanagement of the GOVERNMENT OF THE UNITED STATES to be identified and permanently denied the privilege of creating, operating, shareholding, or profiting in any manner from any incorporated entity again.

Otherwise, all we accomplish is a diabolical "Revolving Door" operation, in which the same criminals choose a new name, re-incorporate under a different banner, and go right on acting as protected criminals.

The privilege --- as privilege it is --- to form a corporation and profit from corporations should be universally denied to felons who have committed crimes of state, murder, kidnapping, and genocide.

While we are at it, we would also like to request the permanent liquidation and return of the assets of the NORTHERN TRUST organization which has been running both the IRS and the Bar Associations. This, too, has been a source of abject mis-administration and criminality and the individuals responsible need to be identified and denied all commercial privileges going forward.

One of the delightful parts of the English language is the realm of Collective Nouns ---- words used to describe a group, as opposed to individuals. Thus we have a "herd" of cattle, an "ascension" of larks, a "piddle" of puppies, a "murder" of crows, and a "gaggle" of geese.

I am unaware of any official Collective Noun applying to the species of "middle men", but I submit the suggestion that they henceforth be known as a "plague" of middle men, and identified as a group opposed to life on this planet and accordingly slated for eradication.

We are living in a world in which organizations created for the "public good" have forgotten their obligations to the public they are supposed to serve and from which they ultimately, albeit through a string of middle men, receive their own sustenance.

A final word on the attempted assassination of President Trump--- it is no mistake that this was promoted via members of the Marine Corps. Like the US Navy, the Marine Corps was born in a state of protracted conflict of interest, compromised by a command structure ultimately controlled by the British Monarchs and not (except while in home ports) controlled by the American Government at all.

This is why Marine Recruits have traditionally (but perhaps no longer?) been obliged to shout, "I am an American!" every day of Boot Camp, to impress this fact upon them forever afterward, and to hopefully command their understanding of where their loyalties ultimately lie --- with the American States and People, not with the "US" corporations like the "FBI" doing business under deceptive names.

Pope Francis, now that the municipal corporations no longer have a contract, nor, for that matter, any legal right to exist, we, the lawful Head of State and Government owed to The United States of America [Unincorporated] claim their assets and direct their personnel to disband, cease and desist operations.

We deny them any use of our Delegated Powers to re-organize, re-name, or re-shuffle their assets to Successor organizations, and deny them any option to resurrect their criminal enterprises via the abuse of our Delegated Powers. We seize upon their names, trademarks, copyrights, and all other assets material and immaterial in the name of their Priority Creditors, the American States and People doing business as The United States of America [Unincorporated]. We, the lawful government of this country, deny them any right, privilege, or honor to create, operate, share-hold, or profit from any incorporated entity and call upon you and the Roman Curia to enforce our determination and this declaration of Notice and Demand, repeated here three times to include all jurisdictions and to dispel and liquidate all these criminal incorporated entities and to bar any further participation of the responsible parties in commercial privileges. [1X]
