

Not Our President

By Anna Von Reitz

Today, I got a copy of a video entitled "This is what Biden did to our family in one month...." in which a tearful young Mother reported the increase in the cost of insulin that her family pays for her young son. This is what Biden did to our family in one month.... - YouTube

Under Trump the insulin was \$60 a month. Now, she has to pay over \$300 per month. And without a coupon from the company itself, it would be \$500 per month for non-negotiable life-saving medicine that she needs for her son. And you all voted for this?

No. No, dear, we didn't vote for it. That's just the point. With or without any election fraud.

Many of us didn't vote at all, because we were disenfranchised many decades ago, and can't vote in the private share-holder elections that result in the US, INC. choosing a new CEO.

That's right, Joe Biden is just a "President" of a commercial corporation, like the President of General Motors or the President of IBM. Joe Biden's corporation is in the business of providing essential government services, but it is still just a corporation ---- and it's a foreign corporation at that, like Target, Inc., or Mitsubishi, Inc.

We've been employing these same jokers to provide the same services since The War of Independence, but over the years, they've morphed into a crime syndicate. Their own employees and shareholders are the only ones with direct oversight and those constituents only speak once every four years.

So, "the rest of us" , the actual Employers, got motivated and called the actual State Assemblies into Session. This has several immediate impacts.

First, we deny these foreign "service" corporations any Public Trust Interest.

Second, we start talking turkey with the foreign governments that are actually responsible for the bad behavior of these organizations. Third, we deny them the ability to assume a continuing contract after bankruptcy.

That's where things stand right now.

Joe Biden isn't our President. He's the President of a foreign governmental services corporation, and he doesn't have a contract.

The actual American public office is: The President of The United States of America.

We haven't had one of those since the Civil War, but we are working on it. Meantime, if you are fed up with the DC Circus, you can actually do something about it. Vote with your feet.

Declare your birthright political status as an American, record it, and join your State Assembly. Go to: www.TheAmericanStatesAssembly.net to find your Coordinators and Recording Secretaries.

Yes, dear heart, there is an answer to this problem, and we don't have to wait another four years for the Federal Civil Service to vote on it, either.
