

Oldie But Goodie

By Anna Von Reitz

I feel inspired this morning to plug (again) the factual evidence that the post-Civil War "Amendments" purportedly made to our Constitution(s) are illegitimate, and that in fact, the document published in 1868 was nothing more than an attempt to "enclose" the Territorial United States Constitution and convert it into the Articles of Incorporation for a Scottish Commercial Corporation doing business as "The United States of America" Incorporated--- in violation of international law.

Bill Benson definitively proved beyond all doubt that the 16th Amendment -- the so-called "Income Tax Amendment" was never ratified by the States.

And here, in the Congressional Record, more proof that the same is true of the 14th Amendment.

These Scottish Criminals were able to get away with this because their look-alike, sound-alike --- ALMOST--- corporate charter foisted off as "The Constitution of the United States of America" was a private document, a commercial corporation charter having nothing to do with The United States of America. It was just an abusive and deceitful misuse of our name and an identity theft, which the then-Congress allowed in Breach of Trust.

Facebook readers, please go to my website to read the actual Congressional Record concerning the "14th Amendment" --- and satisfy yourselves once and for all, that yes, it is necessary for you to stand up, correct your political status, and take action by joining your State Assembly.

This crime has been ongoing for 150 years. It's time to end it.
