

Pay Attention!

By Anna Von Reitz

The Congress corrupted the Judiciary and made it an instrumentality of the Congress by changing the Judge's Oath of Office. They, the Judges, are no longer obligated to follow the Constitutions as a result.

Those Acts of Congress in the early 1990's are unconstitutional, null and void.

The lawlessness that has resulted is self-evident.

This has resulted in the Congress and the Judicial Branch colluding and collaborating against the Executive Branch.

This is how Congress strong-armed the courts and the reason that both reason and justice are denied.

This is how they commandeered the Justice Department.

This is what happens when any part of the system of checks and balances is altered.

And this is part of what we need to correct.
