

Pirates, Pirates, Everywhere.... Make No Mistake

By Anna Von Reitz

There are three known groups of pirates attempting to commandeer our Ship of State.

They are:

(1) Russell J. Gould and his acolytes, pretending that their untoward seizure of the Title IV Flag from some of our disabled subcontractors entitles them to our property; in fact, the actual applicable law is: "Possession by pirates does not change ownership." Our subcontractors never actually possessed our flag in any form or proportion; they were allowed to use the Title IV Flag when conducting business for us and exercising our delegated powers to do so. Their lapse is not our loss under any form of international law.

(2) Reign of the Heavens Society -- a group of nutcases working largely offshore (as pirates usually do) claiming that because they bought some bric-a-brac and documents left over from the bankruptcy of the Scottish Interloper (1868-1906) that they own The United States of America. As the Scottish Interloper was a commercial corporation infringing upon our Good Name, trademarks, and copyrights without authority to do so, it was acting as a pirate and a fraudster, and all that results from piracy and fraud is more fraud. The international law remains: "Possession by pirates does not change ownership." --- whether in 1868 or today.

These provocateurs have done the same thing as their Scottish antecedents and have sought foreign incorporation using and abusing our name and seeking to personate us and confuse themselves with us by operating a corporation merely calling itself "The United States of America ---- Incorporated".

We have never authorized the existence of any such foreign corporation named after our Federation of States, and they have no authority, right, or reason --- apart from attempted impersonation and piracy --- to infringe upon the lawful unincorporated Federation of States in this manner.

Recently, they issued a bunch of clap-trap claiming that I had been sentenced to 37 years in prison and was to be apprehended and sent to the nearest facility; since they are just a bunch of pirates trying to operate foreign storefronts as "States of States" they are the criminals under our Public Law, International Law of the Sea, and Commercial Law Merchant. All three.

Avoid these numbnutz characters like the plague and take nothing they say, no threat they make, seriously. And never let them gain any ground to pull another round of the Scottish Interloper Fraud on us.

(3) A group of Moors and disaffected Negroes styling themselves as the United States of North America (Is Canada involved? Mexico? Just another name-sake of the United Nations' "Regional Government" scheme?) claiming that they are the last surviving Parties to a Suzerain Treaty predating the founding of this country by several thousand years; the problem they face is that

everyone here is also Party to the same Treaty and enabled to enforce the Will of God against them, as we are self-evidently here by the Will of God and Nature and are in control of the actual government of this country--- also by the Will of God and Nature, and in no case does this claim of theirs invalidate one iota of what we are owed by the Queen, the Pope, the Holy See, the Lord Mayor, the Moroccan Government, and the King of Spain.

So, pirates, pirates, everywhere -- and not a valid claim among them, just as you would expect from people and enterprises intent upon making false claims in international and commercial jurisdictions for their own self-interested benefit.

We, the American States and People, and our Federation of States remain the Lawful Government of this country in international jurisdiction. We control this land and soil by the Grace of God and there is no other standing between us and the Divine Presence. And we insist that our Treaties and Power-Sharing Agreements be honored in full and that our assets be returned to us, including our Good Names, our Trademarks, our Copyrights, all our Material and Substantial Interests, without further nonsense, obstruction, or obfuscation.

Nature's God deemed that we should be here and by his grace, here we are.
