

International Public Notice: The Schtick Again

Notice to Principals is Notice to Agents; Notice to Agents is Notice to Principals Universally Received Now

For those who missed it, the British Territorial United States operating as the United States of America, Inc., the U.S.A., Inc. and the United States of America, LLC., etc., etc., etc., and their state-of-state franchises like the State of Minnesota, Inc., or the State of Oregon, Inc., function by passing "statutory laws" at the state-of-state level, and "Acts" and resulting administrative "Codes" and agency "regulations" at the Federal level.

These foreign corporations pretend that these forms of law that pertain only to their own employees acting as "personnel" -- people obligated to obey corporation policies as a condition of employment or privilege -- instead apply to the General Public of this entire country.

They have tried to justify this by illegally and immorally registering millions of American babies as British Subjects, using self-interested presumptions to promote illegal salvaging operations within the borders of our States of the Union. Using these False Claims and Presumptions they attack our people and misaddress them in both Admiralty and Maritime courts.

They knowingly promote crimes of personage and barratry against their American Employers, and this has been going on without correction since 1865. They have consistently misrepresented an illegal foreign mercenary conflict on our shores as a "war" and have illegally occupied our country under these false pretenses. A corporation, much less the "President" of a commercial corporation, for example, Abraham Lincoln, has no ability to declare actual war.

Americans have come forward and proven their provenance and declared their identity as American State Nationals -- not offering to act as any kind of Federal person or entity.

These Americans have recorded their identity and nationality on public records, served Notice and provided due process, and still the United States Secretary of State has failed to properly instruct the Department of Justice concerning Americans who not only retain their own nationality, but have also brought their traditional State Governments, that is, State Assemblies, into Session.

These Assemblies are the only Assemblies having lawful standing and claim to the physical assets of The United States. These are the only States that have international borders that are physically defined with respect to our nation-states.

The King's officers, who are supposed to be here providing us with "essential government services" and doing so "in good faith" are instead trying to enforce unconscionable birth registration contracts signed by Third Parties and coercively promoting national level aggravated identity theft.

We say that all codes and statutes passed by foreign corporation legislatures and "congresses" naturally pertain only to their own personnel and are not owed any enforcement against Americans living peaceably within the borders of our States of the Union.

The so-called silver confiscation "law" Mr. Trump's allies very rapidly pushed through the U.S. Congress is an example.

We, the State Assemblies of the actual States of the Union, do not recognize any granted authority delegated to the U.S. Congress or the United States Congress, either one, to confiscate private property from Americans.

We maintain that these Federal Subcontractors are obligated by Article IV of both The Constitution of the United States of America and The Constitution of the United States, to protect our persons.

We are certainly not paying them to illegally latch upon our Good Names and pretend that we are British Subjects.

This is Notice and Due Process to Mr. Trump and the various corporations administered under his administration --- American babies are being illegally latched upon, that is, salvaged, under False Pretenses, and unlawfully converted into "presumed" British Subjects.

Stop presuming. Stop latching. Stop confiscating, harassing, impounding, salvaging, and most of all, misaddressing Americans --- especially those who have taken the time to properly inform your personnel and who have declared their nationality and reversionary trust interests on the public record.

There is nothing questionable about who we are or what we are doing or how we came to be here, and equally no question about the contractual obligations of the British Subjects and Roman Municipal workers who are also our Service Providers.

This is Notice to King Charles III and Pope Leo XIV concerning their False Claims of a 40 / 60 split material interest in American babies and their estates. Our American Government is still alive, and we still claim them. And you all owe us what you owe us, fair and square.

No personnel or agents of the British Crown, the Holy Roman Empire or the Inner City of London have permission via any contract or treaty to enter the States of the Union and impose any of their corporations' acts, statutes, codes, rules or regulations upon the natural inhabitants of our States --- which since October 1st 2020 includes all fifty former Territories.

Equally, we do not recognize any provision for District Courts to remove themselves from the District of Columbia and misaddress members of the American Public. Territorial Courts are allowed to conduct strictly limited operations addressing their own subject matter and Municipal courts should not exist outside the District of Columbia at all.

The stated purpose of the Insular Tariff Cases (1898-1904) was to allow Agents of our Federal Subcontractors to enter the States of the Union in pursuit of individual British Subjects who were evading the payment of tariffs owed to the British Monarch as a result of profit-making activities pursued in the Insular States, most especially, the British Commonwealth of Puerto Rico.

These cases do not provide an open door for illegal confiscation activities based on impersonation of Americans as identically named British Subjects registered as public trust estates in Puerto Rico. These and other related activities, errors, evasions, and omissions must come to an immediate and permanent stop.

Unless the Monarch, the Pope, and the Lord Mayor can produce a consensual and fully disclosed and mutually understood contract obligating individual Americans to perform foreign citizenship obligations, all duplicitously created foreign persons named after Americans are deemed not to exist, and all and any assets cashiered in these improperly constructed public trusts must be returned unharmed to the victims of this aggravated identity theft scheme.

Otherwise, we maintain that our people have been the unconscionable victims of a conspiracy against the Constitutions owed to them and to our country by foreign service vendors operated by the British Crown, the Holy Roman Empire/City of Rome, and the Inner City of London.

We maintain that our country has suffered a national level aggravated identity theft at the hands of our Federal Subcontractors and Service Vendors and also maintain that millions upon millions of

American babies have been improperly registered and falsely presumed to be stateless persons subject to salvage under British Admiralty Law.

These American babies were seized under False Pretenses and color of law and self-interestedly misidentified as wards of the Crown, prior to them reaching the age of contractual authority, and without disclosure to their parents.

This secretive registration process amounts to a human equivalent of cattle-rustling, or, as it is, institutionalized illegal salvaging operations, which results in human trafficking evidenced by (1) clearinghouse receipts, also known as "birth certificates" being issued in what appear to be the Given Names of the victims, and (2) the Given Names of American babies being copyrighted by the British Crown Corporation.

It also results in the unlawful conversion of the victim's natural political status and an assumption that the individual victims are British Territorial Subjects—that is, colonial U.S. Citizens.

These undisclosed, illegal, and immoral activities have been used to impersonate and subjugate Americans who are owed the "good faith service" and "protection" of their persons under Article IV of both The Constitution of the United States of America and The Constitution of the United States.

These extraordinary acts of white-collar crime carried out by state-of-state franchises of the guilty foreign parent corporations have served to impose foreign mortgages, foreign trust obligations, and foreign tax obligations on Americans who are at peace with the British Crown and who are naturally exempt from levy and tax obligations.

Americans are exempt from foreign levies and have always been free of levies since the implementation of the first Immigration and Naturalization Act; we do not levy our own shipping nor apply tariffs to it, which is only common sense.

Americans also enjoy tax prepaid status as a result of the very substantial "National Debt" owed to us by our foreign Subcontractors operated by the British Monarch, the Popes, and the Lord Mayors of the Inner City of London, Ghent, and Utrecht.

The so-called "National Debt" is owed by the citizenries of the Federal Subcontractors and it is owed to the Americans who are their Employers; this is a situation in which our public employees and the corporations they work for owe us a very large outstanding debt, while we, in turn, owe them a much smaller debt resulting from the services they provide for us each year.

Recognizing this "mutual indebtedness" the U.S. Congress provided the option of debt swapping via "Mutual Offset Credit Exemption Exchanges" (MOCEEs) provided for under Federal Title XII; this was meant to provide remedy allowing the legalization of legal tender laws and to prevent accusations of credit racketeering.

According to the Perpetrators of this circumstance, Americans have had the free option of either extending more and more and more credit to the Federal Vendors and their state-of-state franchises, or exercising a MOCEE credit swap --- action that would relieve the American victims from having to extend more credit under force, and reduce the National Debt of their Federal Service Providers.

Unfortunately, the Officer made responsible for providing the MOCEE remedy by the British Parliament, the United States Secretary of State, never actually set up any program allowing the American Public access to this remedy.

Americans who ask for the MOCEE remedy plainly stated in the U.S. Federal Code are routinely profiled, harassed, misrepresented as rogue British Territorial Citizens avoiding their taxes, or as

Municipal CITIZENS of the United States avoiding theirs, given "the silent treatment" and the bureaucratic run around, as both the members of the State Department and Department of State pretend blissful ignorance of their obligations and their need to legalize the use of their own legal tender.

After this abysmal decades-long failure to perform and failure to provide remedy ---which means that their legal tender has never been legalized, either--- the U.S. Congress has just passed another "bill" aiming to confiscate physical silver belonging to whom?

Logically, legally, lawfully, they can only address their own personnel counted as their foreign "citizenry" resident in this country, but we know from experience that they will try to misrepresent average Americans as British Territorial U.S. Citizens, or worse, as citizens of the United States, that is, Municipal franchise corporations.

And they will attempt to misaddress and impersonate average Americans as these identically or similarly named foreign Persons/PERSONS in their own district courts and attempt to subjugate their creditors, employers, and benefactors under color of law and conflict of interest, using aggravated identity theft to accomplish this "offered" illegal confiscation of private American investments, similar to what Franklin Delano Roosevelt did with gold seizures in the 1930's.

We have this to say to the British Monarch, to Parliament, to Brussels, to Pope Leo XIV --- your deceit and fraud and false registration of American babies has been discovered, and under Roman Law, which you are all so fond of, all Principals and all corporations created by or under the authority of the Roman Curia, including the British Crown Corporation and the various National and International Bar Associations, must stand down, must return our purloined property, including the Crown copyrights on our Given Names, and must provide remedy and must cease and desist all additional or collateral crimes that have promoted and promulgated against this country and its people and its lawful institutions.

We are not fond of Roman Law and have not bound ourselves to it, but our Federal Service Vendors, their state-of-state franchises, and their Agencies can't get enough of it; so, by their own law, they are hung all the way back to May of 1865 and the inception of the military district courts and the illegal mercenary occupation of our country.

The Principals are at fault, the Parliament is at fault, the Officers and Administrators of the Courts and Bar Associations are at fault, Brussels is at fault, Westminster is at fault, the Vatican is at fault, the Roman Curia is at fault, all the various "governmental services corporations" being operated by these Principals and Subordinates are at fault.

They have been given due process and found guilty of these crimes and fraud schemes by our Court of Record, and have done nothing substantial to correct their operations, bring remedy, or make amends. These are international crimes that have no statute of limitations.

As things stand, the Trump Administration appears to think that it can "pull another FDR" and illegally confiscate American silver the same way they illegally confiscated American gold to dig themselves out of their own self-created hole. It isn't going to wash this time.

If Mr. Trump needs 500 million ounces of physical silver, we suggest that he examines the bankruptcy of the Federal Reserve System following the 2008 calamity, and check how much purloined American silver Jamie Dimon and JPMorgan and Chase received as creditors; we also recommend that he checks their buyer's receipts for all the silver that they have claimed to buy in intervening years.

We suggest that, yes, they used credit based on our purloined silver to buy more silver, which they secretly sold and rat-holed as they pleased; but that leaves 750 million ounces of physical silver that is still our purloined asset, not theirs. All their buying of silver 2008-2025 is just a

smokescreen, a cover-up and double dip scam designed to provide them with an explanation of how they happen to have such a mammoth amount of physical silver just laying around the vault.

Once Mr. Trump does his job and recovers our purloined silver, we will talk about his needs. Until then, he can keep his paws off physical silver owned by Americans and the U.S. Congress can recognize the fact that their schtick is known and their cover is blown.

So said, so signed, so sealed and issued by:
