The Long and Short of It: the RFK Assassination Truth Reduced to Two Paragraphs:

"Unlike his assassinated brother, RFK received a first-class autopsy whose results are trustworthy. Renowned medical examiner Thomas Noguchi performed the autopsy. The autopsy report and Noguchi's trial testimony reveal that (1) all three bullets striking RFK were fired from behind him, and (2) the three bullets had been fired at point-blank range—" [the] muzzle distance... was very, very close." The fatal bullet was fired from a firearm "one inch from the edge of [RFK's] right ear and three inches behind the head."

Sirhan could not possibly have fired these three shots. He was in front of RFK and never came within 4 or 5 feet of him."

Is that clear enough for everyone?

The DOJ was complicit. The FBI was complicit. The CIA was complicit. The LAPD was complicit. They all lied their rumps off.

I knew that on my 12th birthday, June 6, 1968. The first thing I heard that morning was the assassination of RFK, the last US Attorney General who actually tried to defend the American States and People.
