And download and preserve this book!!!!

Published in 1896, a Senator, a Judge, and a Colonel in the military secured all the records and analyzed the financial status of the country from 1812 forward.

What they found is crucial information that every American should know and which all military and civilian leaders should know---- and take action to correct, even now, when the results of this uninterrupted crime spree have spread for over a hundred years and gone worldwide.

This is one giant leap forward in the quest to nail down what happened to our country and what needs to be done now.

I am concerned that once our enemies know the importance and content of this book by Archie Campbell Fisk, they will do what they have done before --- and seek to destroy the evidence.

Go online and download your copy of the pdf and distribute it and archive it for posterity.
