

The Missing Pieces

By Anna Von Reitz

I have recently had cause to be re-reading documents from the past as we continue the arduous business of sorting through and reconstructing my law offices after the Earthquake.

As I reported, the books all landed on the floor and got put back in the shelves in no particular order; lots of old files and publications also hit the floor and are in boxes and piles waiting to be sorted. So in all my "spare time".....

Anyway, I chanced upon my copy of "Lawfully Yours" --a quite wonderful publication from The Anti-Corruption Society-- (<https://anticorruptionsociety.com>) and was reading it again as one tends to do while sorting paperwork.

And thanks to Al Whitney and Crew, I could very clearly see The Missing Pieces:

1. There is an entire part of our "Federal Government" that is Missing in Action and has been MIA since 1868. It was never fully "reconstructed" after the Civil War -- though we were all left to assume that it had been.
2. The portion of the Federal Government that is missing just happens to be the portion of it that is owed to the American States and People: the Federal Branch of the Federal Government, which was and is supposed to be run by the Confederacy of Federal States of States formed under The Articles of Confederation adopted March 1, 1781.

This Confederation doing business as the "States of America" was composed of business organizations operating as "States of States" that mirrored the actual States of the Union Federation called "The United States of America" formed five years before.

Both of these organizations, one a Holding Company for the Federation States (The United States of America) and one a business association (States of America) were both formed during the Revolutionary War and continued to function afterward.

The United States of America is still in operation, but the original States of America organization is not.

That's the Missing Piece, together with the Federal States of States that are supposed to operate the Federal Government. These States of States operate under these names: The State of Georgia, The State of Ohio, and so on.

Notice that like The United States and The United States of America, the word "the" is capitalized and is part of their actual Proper Name.

When you realize this fully you can see that what we have been dealing with are operating under deceptively similar names: "the" United States, "the" State of Florida are not the same, so what are they?

They are Territorial United States entities.

The Territorial United States Government operated by the British Government is also a part of the original Federal Government-- the Territorial Branch. Not the Missing in Action Federal Branch, but it has been deceptively calling itself "the" Federal Government and getting away with it as a part of the intended Federal Government we are owed.

The Municipal United States Government authorized under Article 1, Section 8, Clause 17 has been using the same semantic deceit to call itself "the" Federal Government, giving everyone the impression that a mere (and intended to be small) part of the original structure is the whole.

There are supposed to be three branches to the Federal Government-- Federal, Territorial, and Municipal, but the actual "Federal" branch is MIA, and it's Federal States of States are mothballed, awaiting "Reconstruction".

Meanwhile, self-interested European carpetbaggers have been secretly and fraudulently "representing" the American States and People and we have been kept in the dark, unable to solve a problem that we were deliberately left uninformed about.

Meanwhile, our False Trustees and disloyal employees responsible for this situation have put in place various ploys to try to cement their theft of our entire country via legal chicanery and false claims in commerce.

First and foremost is the bogus claim of the Municipal Government that our Mothers were all Unwed Mothers who donated our DNA and our Good Name to the Territorial Government.

Second is the bogus claim that we set sail in 1933 and were never heard from again-- allowing the perpetrators to declare our Good Names "legally" dead and to probate our Estates "for" us -- so as to enrich themselves at our expense.

Third is the bogus claim that any of this has been done with our knowledge or consent, that any of this was fully disclosed or voluntary.

I have often locked horns with Karen Hudes, but I do agree with the quote you will find in the Foreword of "Lawfully Yours"---

"....the ABA (American Bar Association) has lost all -total- credibility, and they should apologize to the American people for what it is they have been doing. And they should disband."

None of this pernicious and evil deceit, nor any of the abuses of it, would be possible without the corruption and often, gross ignorance, of the members of the American Bar Association.

Folks, we have been kept in the dark and fed hay for so long by these villains that they think we are dumb beasts, "livestock" to be milked, and when times get hard for them, to be slaughtered either as cheap mercenaries in wars for profit or as murder victims in concentration camps, so they can collect on life insurance policies, write off their debts to us, and seize our property as "abandoned" assets.

These corporations and the people who are running them are shameless and they don't want to give up power even when it is crystal clear that the jig is up.

Record your claim to your Trade Name (Given Name) and Re-Convey it to permanent domicile on the Land and soil of your birth State. Then claim your ASSUMED NAMES.

(<http://annavonreitz.com/basicforms.pdf>). Then join your State Jural Assembly and post to the National Jural Assembly: <https://theamericanstatesassembly.net/>

Although our actual government and our Federation of States was never in the Civil War, it falls to our States to clean this mess up, convene our State Jural Assemblies, and reconstruct the "missing" Federal States of States that each one of our States are owed, and take care of our other business, too.

Once our actual Federal Branch of the Federal Government is restored and the European thieves and knaves and their American Flunkies are put in their places, America will be back on track.

So if you want to Make America Great Again--we now know what needs to be done, by whom, why, and basically-- how.

Come back "home" to the land and soil of your birth, and join your State Jural Assembly.
