

## The Mueller Nuthin

By Anna Von Reitz

At last, the vaunted Mueller Investigation is over.

After a gazillion dollars spent on this politically motivated nonsense, we now know what most of us knew two (2) years ago: no collusion with Russia.

I am so disgusted by this whole waste of money and time and public discussion spent on this, that for once, words fail Grandma.

This should go down in our country's history as something far worse than Watergate, and all of it focused on one man in an attempt to overturn an election.

If we never had any other example set before us as a valid reason to upchuck the whole private corporate election system and the continuance of any control of the purse-strings by political lobbyists, this one should suffice.
