

The Turning of the Seasons and the Tides

By Anna Von Reitz

Word is beginning to dribble in from all around the country of court victories and banks giving up and releasing foreclosure claims against Americans.

There is still a great deal to be settled, and still some great injustices being perpetrated, but the tides are turning in favor of the "little people" --- and I am not talking about Leprechauns--- who have taken my advice to heart:

1. Mandatory FSIA Notice;
2. Acknowledgment, Acceptance and Re-Conveyance of Deed (which includes claim to your Trade Name and all derivative NAMES and declaration of their permanent domicile on the land and soil of (California, Wisconsin, et alia);
3. Act of Expatriation making it clear and explicit that you forswear any Territorial United States or Municipal United States citizenship;
4. Common Law Certificate of Assumed Name

I do not want to be inundated with questions about recovery of homes and farms and businesses that have already been taken illegally and unlawfully just yet, because I don't know the answers at this point. The bankers and politicians have created an immense backlog of injustice and loss and not all of it can be simply "returned". There isn't enough Title Insurance in the world to compensate everyone who has been harmed.

That said, there will be answers and there will be remediation. Just expect that it will take time to work out the details, and realize that The Living Law Firm is working as hard as it possibly can as fast as it possibly can.

We are very much under the gun to do mammoth amounts of work in a short time, understaffed, unfunded, and dependent upon all of you to weigh in and help steer the ship and keep bailing.
