

War "Talk" Against China is Crazy --- and Unjustified

By Anna Von Reitz

We have heard sabers rattling and all sorts of bombast against China coming from all sorts of sources and it needs to stop.

Number One Reason?

The Wuhan Bio-Tech Lab where all this started is owned by George Soros, a citizen of the United States. Not a Chinese lab at all, even though Chinese scientists were working there.

Number Two Reason?

The "feedstock" for the development of the chimera strain corona virus also came from the US, and was most likely donated or sold into the development project by Dr. Anthony Fauci. The virus has HIV splices of genetic coding allowing it to produce Glycoprotein 120, which has been Fauci's "baby" since the 1980's.

Number Three Reason?

In 2014, the US stopped development of chimera viruses. In 2015, Fauci diverted almost \$4 million in NIH research funding to George Soros's Wuhan facility so the Chinese could continue development --- Fauci evaded US Law and misappropriated funds to do it..

Number Four Reason?

Dr. Charles Lieber, a leading biological nanotech researcher and head of one of Harvard University's science programs was also deeply involved along with Chinese Grad Students. If anything, it looks like the Chinese were being manipulated by these schmucks who were finagling to keep on researching and developing bioweapons that they stood to profit from. When they could no longer do it here, they moved to China. This was a US Project that got moved to China, not a Chinese Project.

Number Five Reason?

The first person to develop symptoms of "Covid 19" was a non-Com from Fort Detrick.

Number Six Reason?

This was obviously a set up with Bill Gates, WHO, the World Bank, and other investors and vaccine manufacturers. Gates has heavily invested in virus development and vaccine factories, both. He and Fauci are pals. Both stand to make huge fortunes and gain immense political power if they can pull this scam off. WHO is obviously complicit. What kind of scientific or medical organization declares a pandemic based on 150 cases, and on top of it, fails to initiate any clinical process to identify the specific pathogen? The World Bank is also obviously complicit -- inviting investors to put their money into "Pandemic Bonds" just in time to collect on a staged pandemic.

Number Seven Reason?

This whole thing was hardly hitting the news before "the US, Inc." was in court, finagling and accusing China of being liable for all the economic damages caused by this phony pandemic, and

that amount being sought just happened to be almost exactly the same as the US-China Trade Deficit. Read that, the pikers caused this problem, blamed it on China, and have been trying to force China to pay them "reparations" for the damage they caused to everyone concerned.

Number Eight Reason?

Almost simultaneously, the new British 20 Pound Note was issued by the Government of Westminster, showing a cheesy photograph of the Queen and --- wonder of wonders ---- a holograph of a 5G tower, and right above it, the laboratory symbol for the corona virus. The perky bastards fully admitted that they were the cause of the problem and the 5G connection, too, right there in front of God and everyone, in language nobody could miss or misunderstand. They took credit for it. So why on Earth is anyone looking elsewhere?

Number Nine Reason?

What did the Chinese gain? Nothing. They lost lives. They lost trade. They lost support from their own people. What did "the US" gain? A fleeting excuse to back-charge China for a well-earned Trade Deficit. China is THEIR creditor, not ours. And we've made it clear that we are not paying their debts for them. Now we have to make it clear that we aren't going to war for them, either.

Number Ten Reason?

The Americans and the Chinese, both, are owed a whopping large amount of credit back from "the United States"---- which owes us somewhere around \$25 trillion as unpaid "National Credit" and owes China nearly that much as an unpaid Trade Deficit.

The Pikers cannot or will not pay their debts or deal honestly about the circumstance, so they planned first to attack and kill us via a civil war. That plan was exposed and defeated, so now the weasels want to find an excuse to kill their other Creditors, the Chinese, ---- and get us to do it for them.

This is all about the US, Inc. and the USA, Inc. not paying their debts, and then plotting to strong-arm racketeer or murder their creditors ---and both the American People and the Chinese People have been in the cross-hairs for this malarkey.

Summation:

The Chinese have, with 99% certainty, been targeted both as: (1) potential collaborators, and (2) victims of a giant con scheme designed to--- one way or another--- erase "the US" Trade Deficit with China.

China had nothing to gain from dirtying itself by unleashing a bioweapon attack on the rest of the world. That would be shooting its customers in the foot. No, China had nothing to gain --- but the US and its British Siphons in Westminster stood to gain, and so did WHO and the World Bank and Dr. Anthony Fauci and Bill Gates and Bayer, Inc., and CDC (which is a private vaccine manufacturer), and George Soros and all the Dem Deep Staters could hope to blame all this on Donald Trump.

Simple enough.

We know who did this. We know why. There is no big mystery here. There's just a failure to own up and face facts. It's easier to blame people who are innocent but different from us, than to face down the monster we have allowed to inhabit our own shores, walk down our streets, and sleep in our beds.

If Americans go to war over any of this, we aren't going to march on Shanghai. Oh, no. And we won't be tricked into bombing Berlin, either.
