

## The "War" You Haven't Known About

By Anna Von Reitz

Every two years the Territorial United States Congress does something inexplicable. They declare a "state of emergency" and they set aside the actual Constitution. Then the President comes along and also declares states of emergency and declarations of "war" against this and against that --- poverty, terrorism, drugs, just to name a few.

This is all specious, almost tongue-in-cheek, done to secure a "legal" basis for unlawful acts and presumptions against us, including the misidentification and mis-characterization of millions of Americans, falsification of public records, and other crimes too numerous to mention.

This constant state of perpetual "war" is not actually declared, because it is an illegal mercenary conflict being played out on our shores by foreign interests.

Please note that the so-called American Civil War was exactly the same thing--- an illegal mercenary conflict passed off as a "war". This has been the stock-in-trade of the British Crown for over a hundred years and they have been using us as their "base" of operations all this while.

There are in fact no "emergency powers" granted to the Territorial Government by our Government and any such declaration of "war" on their part can only apply to them and their employees and dependents.

This is why they have endeavored to mis-identify all American babies as belonging to the Territorial United States--- to involve us and our assets in their perpetual phony wars and "states of emergency" when in fact we are owed The Law of Peace and Good Faith Service from them.

That their false claims and falsifications of our public records are evidence of Gross Breach of Trust hardly needs to be said. That they have continued to prosecute us and persecute us under these known false presumptions is nothing less than despicable.

A couple weeks ago we issued Notice to Westminster regarding these activities by their Bar Association members on our shores. We have a perpetual Treaty of Peace and Amity which they have been disregarding via the convenient pretense that Americans are all "United States Citizens" and dissembling over which "United States" we are part of.

Let's make it clear that we are part of "The United States" and so are our Armed Forces---- not "the United States" in any form. See the difference? "The United States" was formed under The Unanimous Declaration of Independence, but "the United States" could be any spin-off or Pretender and could refer to the Federal United States, Territorial United States, Municipal United States or maybe the United Nations United States or the South American United States.

We must be explicit and clear about which "United States" and which "United States of America" --- because there has been no end of semantic deceit and trickery and legal chicanery attached to these names.

We have recent proof that Americans who have recorded their Deeds of Re-Conveyance and who claim their American National (or more explicitly still) their National of The United States of America [Unincorporated] status, are being passed over and left alone --- as we should be.

The best recommendation for the moment while new instructions trickle down is to clearly identify yourself as a non-combatant National of The United States of America [Unincorporated], pending the issuance of new National and State identification cards.

If the Queen and the Pope want to engage in mercenary conflicts, they need to find new staging grounds for their games. China has already told them --fine, so long as you remain under Chinese Law.

And if you screw around like you did in America, that means Firing Squads in the morning.

At last report, the Internal Revenue Service (Inquisition) has decamped from Puerto Rico after destroying as much evidence as possible of their decades of defrauding Americans, and have set up new offices in the American Marianas--clearly intending to continue their piracy from a new location.

Mr. Trump already knows that this is not acceptable and that all traces of both the IRS and the Internal Revenue Service and any would-be Successors must be gone from our shores including our territories and municipalities, and they must stop addressing our people and must remove all liens against American-held assets.

We are innocent Third Parties who have been embroiled in merchant "wars" that have nothing whatsoever to do with us. We have been used as gun fodder in these phony "wars" and our assets have been used as collateral by these foreign gangs of criminals without our knowledge or consent. Those who have profited must pay for this circumstance and those who have engaged in these crimes must be set to rights.

There are a great many people who have committed crimes unaware that they were doing anything wrong -- and they must be forgiven. Those who promoted this circumstance, who benefited themselves from it, and who knowingly participated in harming the States and People of this country while taking their paychecks from our pockets deserve our universal disgust.
