

## Who Really Owns What --- Notice of Prohibition

By Anna Von Reitz

The People own the Republics, the Republics own the States, and the States own all the various "States of States" ----National, Territorial, and Municipal.

The United States of America (Unincorporated) acts as the Holding Company of all the international powers of the States --- all international powers delegated and un-delegated, in all jurisdictions, air, land, and sea.

The United States of America (Unincorporated) delegated certain enumerated powers in the international jurisdiction of the sea to three subordinate organizations --- National, Territorial, and Municipal -- via three constitutional agreements.

In the event that the delegated powers cannot be exercised properly by those entrusted to exercise them, they revert back to the Donor/Grantor of those enumerated powers --- The United States of America (Unincorporated).

The National-level States of States were moth-balled "pending reconstruction" and usurped upon by the Territorial United States which secretly substituted its own Territorial States of States for those owed to the people of this country.

Now both the Territorial United States and its States of States and the Municipal United States and its STATES OF STATES are bankrupt and in receivership.

All three levels of government exercising the delegated powers are incompetent, so all powers they held revert back to The United States of America (Unincorporated), which retained all un-delegated powers from the start.

So, once again, all powers in international jurisdiction --- air, land, and sea, delegated and un-delegated, are held by The United States of America (Unincorporated) and its member States.

The United States of America (Unincorporated) has taken the necessary steps to reclaim the National, Territorial, and Municipal Assets and acknowledged, accepted, and re-conveyed the delegated powers. It has renewed and re-issued its Sovereign Letters Patent and preserved the constitutional system pending action by a Continental United States Congress of State Fiduciary Deputies.

The United States of America (Unincorporated) has summoned the actual land jurisdiction States of the Union Federation to assemble and they are doing so. In the meantime, The United States of America (Unincorporated) remains as the only internationally competent government representing this country and its people.

This in no way weakens the lawful or legal standing of this country or its government. Our Hired Help can go bankrupt until the cows come home without it impacting the standing of The United States of

America (Unincorporated) as their Priority Creditor and Lawful Holder in Due Course of all powers, prerogatives, and assets owed to the States and the People.

There is no excuse for any pretense that our assets are "abandoned" or our actual government in "abeyance". Those false claims have already been thoroughly rebutted and Due Notice and Due Process has been afforded the organizations and principals responsible for this deplorable performance for a number of years.

Fraud vitiates everything, even the most solemn contracts, even dispositions of property made in past.

In the course of our investigations, we discovered that our delegated powers have been abused by the Territorial and Municipal United States and that our copyrights have been infringed, and that our Patent and Trademark Office has been abused without our knowledge or consent.

The Territorial United States and Municipal United States have formed franchises worldwide and operated those franchises as subordinate assets; they in turn have issued charters to vast numbers of incorporated entities ---- all of which now come under the ownership and administration of The United States of America (Unincorporated) and the respective member States.

We are not members of or bound by the Geneva or Hague Conventions, however, with respect to our assets and our government, we own the Territorial and Municipal Governments that are signatories; not only do we own our own Territorial and Municipal Government corporations, we own their franchises -- the States of States -- and all the commercial corporations that have been formed under their auspices.

This results in a situation in which we are the de facto owners and record title holders of most of the governments and commercial corporations on Earth. It was the intent of the perpetrators to run up insurmountable debts against us and our assets, seek bankruptcy protection for themselves, and leave us holding the bag. They also counted on us to remain asleep and acquiesce to their false claims of abandonment of our assets.

This country and many other countries around the world have suffered the equivalent of identity theft and credit fraud --- and still the central banks and international trustees responsible are trying to avoid the necessity of correction.

This shall serve as a Notice of Prohibition objecting to any bankruptcy settlement made "in our behalf" by the perpetrators or their secondaries and bankruptcy trustees that does not provide for the return of our assets free and clear and the return of all profits, leases, escrows, insurances, bond income, intellectual properties, copyrights, patents, trademarks, accounts, logos, and other beneficial interests which are ours and which we have enumerated at length.

We are not being unreasonable or unkind or seeking any unjust enrichment; by the same token, we are resolved not to bear any Odious Debts, false title claims, or further Breach of Trust. We require what is ours returned to this country, together with all remedy and restitution rightfully and naturally owed to our States and People.
